

If you are a professional caregiver,
Footprints in the Sand is a must-have!

If you know a professional caregiver,
give them ***Footprints in the Sand***!

If a caregiver is coming into your life
to help you, or a loved one,
you must own ***Footprints in the Sand***!

With inspirational Forewords by Anne Armstrong-Dailey Founding Director/CEO of Children's Hospice International, and Rev. Mpho Tutu, Executive Director Tutu Institute for Prayer and Pilgrimage, ***Footprints in the Sand***, presents stunning images by award-winning photographer Wayne Schoenfeld, telling a story of hope and love against all odds.

Photographed in Grabouw Township, South Africa, at the very time that the Children's Hospice International Congress was convening in Cape Town, Schoenfeld and his team of filmmakers followed the daily work of the caregivers from *ThembaCare* and *Village of Hope* as they provided hope and comfort to victims of HIV/AIDS and the other diseases of poverty and neglect.

"The book is also a journey, the latest in a wonderful series by Wayne Schoenfeld for Great Circle Books about Humanitarian efforts around the world. And once again we learn from him, and the people he introduces to us, that the destination is never as important as the trip itself, and what we all stand to gain along the way."

Rex Weiner
Editor in Chief
Great Circle Books
